DEAR GRETCHEN MORGENSON of NBC & the slew of chump journalists & podcasters who have stupidly embraced the fly-by-night con artist, Tom Gober,

.... Also welcome MARK WALTER of Guggenheim Partners who can feel free to contact me about the storefront hustler, Tom Gober, at which point we can contact Mark's attorney to have Tom Gober's career, reputation & his freeloading videos erased from the internet AND have the miscreants of the ACFE held liable,

.... AND LAST BUT NOT LEAST, the monstrous low life, Tom Gober, who has no business being in business or calling Josh Wander a crook before being the first one to walk into a prison cell ahead of Josh,

.... I'm sure people at Better Wealth & Steve Eisman will find this all very interesting as will Leon Black's attorneys. Also make a note of the fact that Steve shorted CDO's thereby profiting from the collapse of [the U.S. housing bubble in 2007-2008](#).

....It's funny to see the good Christian, Tom Gober, aligned with this genocide-pushing, low-life— Steve Eisman— being that profiteers such as Steve had provided Tom with a bogus excuse to pull the rug out from under his legal & ethical obligations with me while playing the victim by insisting that I not only didn't know him, but that he would never do business with hedge fund managers who were "all about money" as he was diametrically opposed to what hedge fund managers stood for despite previously approaching them & botching it.

This is Gober's way of escaping his legal obligations that involved everything from implied to written contracts in the state of Virginia for which I originally had an attorney before it was discovered that there was a conflict of interest at the firm. But then again, this "conflict of interest" is no different than Epstein cronyism.

Also, I'll be releasing a petition later today to bring a certain low-life, fake messenger of god to justice while holding a certain hedge fund manager accountable along with a few others..

.... Again, I urge Mark Walters to contact me just as I urge against Tom Gober from stalking me as he has in the past by sending some homeless, college kid to my brand new, fake address with a bouquet of flowers that looked like something he stole from a scarecrow, just so he could try to get up to my room. I was contacted by somebody at the front desk who was totally freaked out.

**** Note that I scratched out the name on the little scratch paper in the picture.** <https://thomasgober.com/tom-gober-is-stalking-me/>

But now onto Gretchen Morgenson.....GRETCHEN, you have absolutely no journalistic ethics writing this article & splaying a huge picture of this con artist in this article when you knew exactly what he is as I had contacted you about him before & you had initially responded. <https://www.nbcnews.com/news/us-news/paid-insurance-company-99000-generate-retirement-income-life-collapsed-rcna331934>

....But instead of blowing the whistle on this crook, you pander to him & elevate him like the jealous, dried-up crone that you are. This is a man who should have had his business license revoked, but he didn't because like Jeffrey Epstein, this attention freak is protected by a ring of dirty cronies.

....**and it doesn't matter that he screwed all those people over**, including his own attorneys who Tom pulled the rug out from under then lied to in terms of my working relationship with him by saying that I had been writing his life story & that my actual business plan which included Tom's own attorneys, Dan Loeb of Third Point Financial & a lobbyist with White House contacts, was all **theory** being that I have nothing better to do with my time then to armchair theorize with Tom Gober and to make random phone calls to random billionaire investors just to yank their chain when I'm not introducing Tom to lobbyists to whom he makes guarantees. *Incidentally*, that lobbyist I had a cousin, George Pyne, who we would have been working with, but is now working with Josh Harris of Apollo Global Management.

Incidentally, Tom's own attorney Dee Miles had said he would talk Tom down, but instead he got stonewalled by him & surely intimidated knowing that if he pushed the subject, then Dee would have a disappearing act for an expert witness, much like what I received. There is no way Dee can deny that he was on board especially as I have a voicemail screenshot about getting together with Joe Whatley to discuss moving ahead & bringing everyone's careers to a whole new heights whilst exposing all of the people who are now Trump oligarchs. But in the end, my partner pulled a disappearing act on me and his obligations before playing the victim because that's what's truly despicable people do, they play the victim.

.... *In truth*, Gober is no different than Donald Trump as they are both always looking to get something for free before throwing people away who no longer shine their ego. With Gober, he always looks towards a bunch of simple-minded, religious freaks because they never seem to wise up being that all you have to do is to quote some scripture and give some cult-like, pat speeches wherein you got them where you want them. Keep in mind the new people who are pandering to his narcissism with these videos are no different than the student videographer, Cody, who he was exploiting before me. In the end, Gober talks a good talk, but he's ultimately a non-doer looking for a flock who will follow him over the edge. **This is what is called getting gobered.**

For all those religious freaks who thinks he's a good guy, they just have to remember that Tom's is a phony always looking for a seat in the front row of any church with his ugly, gold digging wife when he's not leering at the young girls in the choir, like he was leering at me for 2 years at Starbucks before approaching me with this editor ruse. <https://betterwealth.com/blogs/private-equity-life-insurance-affiliated-investments>

.... Gober's also what an organization called The Ranches wrote about as they are a ministry who understands how altruistic narcissism runs rampant in this field wherein predators & attention freaks like Tom Gober always take advantage of those closest to them while trying to keep a pious outwards image. <https://theranches.org/altruistic-narcissism-in-ministry-and-service/>

It's also what David Einhorn of Greenlight Capital described as "*Tom thinks he's an angel sent from god with a message for the world*" and unfortunately, this is what Mr. Empathy David Einhorn abandoned me with before scavenging me for leftovers from Tom & ignoring the insolvency of his third major holding Brighthouse Financial despite me wanting to give him options that included Gober's attorneys who wanted to talk to him so he could do more than protect his investors from the truth.

.... Instead, David just rubbed salt in the wounds by telling me, "**By the time I got to anyone I was after, they'd all be dead**" ...Meanwhile, BHF now transitions to a private equity at a premium, despite them knowing that the company was founded broke from day one by MetLife in Delaware, which means this whole thing stinks of an illicit, dividend recapitalization scheme.

AGAIN, Gretchen Morgenson, you're an absolutely despicable example of journalism. Expect my next mass email going out to be going out to a jury of your peers along with politicians and academia and major attorneys. This includes all the ME TOO defenders.

The actions of this nefarious, unhinged narcissist, **Tom Gober**, will be his undoing as I will tell people like Mark Walter of Guggenheim Partners that this person's testimony is fruit of a poisonous tree who should have had his license revoked years ago for running an exploitative, home business in which he approaches private citizens on contingent promises, *similar to what he uses with his attorneys*, but he knows that he can't get away with screwing over his attorneys like he can women who he leers at for 2 years at Starbucks. **In the end**, Tom is no different than dealing with Donald Trump and his temper tantrums that threaten to attack Greenland if he doesn't get the Nobel Peace Prize OR shutting down the Kennedy Center if they don't put his name on it.

TOM GOBER has no professional integrity & NO SCRUPLES, JUST AS GRETCHEN HAS NO JOURNALISTIC SCRUPLES OR empathy towards women in the workforce unless they're maternally-- *trust me, Gretchen's not hard to read*. But this is what protects all the Gretchens.....Meanwhile, TOM GOBER is protected by a crooked ring of scumbags in high places no different than Jeffrey Epstein or R. KELLY was so don't you dare write about Leon Black because that's my story & that's part of what the Gober owes to me-- *you complicit thief of a journalist!*

BOTTOM LINE: Tom Gober is a non-doer, bullshit artist who has made me into the ABSOLUTE biggest ME TOO story of all time that's entangled with the biggest, white-collar, fraud scheme of all time that's entangled with the biggest, psychotic narcissist of all time, and *I'm not talking about Leon Black or Jeffrey Epstein and Donald Trump*. WE ALL KNOW THAT'S TOM GOBER WHO MY FORMER LOBBYIST HAD DESCRIBED AS A FAILURE TO LAUNCH WITH INVESTORS who he blew off despite them wanting to work with them. *Incidentally*, Gober had promised his own attorneys to this lobbyist, specifically *"Dee will do what I want to do."*

....**Remember**, the "watershed moment" this one-man, crimewave promised to my lobbyist was withheld as punishment for me telling him that I could not work for him for free & take his abuse if he were going to lash out at investors who were sorely needed as *"it takes big money to take on big fraud."* This is the sort of stance that got me labeled as being disloyal & *"all about the money"* and it's all in his own emails which doesn't sound irrational to him. THIS is where Gober was far less generous than Jeffrey Epstein as he decided to put the squeeze on his minions, as **opposed to seeing me as his partner that I was**, by sabotaging his lifelong mission of taking down the worst fraudsters who were siphoning the insurance industry at breakneck speed that would lead to the next financial collapse much sooner than expected.

In other words, destroy your own sandcastle so no one else can play with it then, have the audacity to think that you can slowly rebuild it like a shady captive in a different location, wherein no one will notice what you're up to. Maybe this is why an attorney I had consulted with at the time had said that Tom doesn't fit any industry's standards of ethics so strange that he should worry about others.

.....*Likewise*, if Tom Gober is no better than an Epstein Republican, then that means Gretchen Morgenson is part of a crooked ring of elitist journalists & like the boys club, the ugly girl mafia will only allow whistleblowers to come in certain packages..... **Where the hell's my me too attorney and a lot more..??**

Maybe this is what Gretchen needs to keep in mind when she talks to Roberta Kaplan who uplifted a piece of garbage like E. Jean Carroll who gets naked in a dressing room because E. Jean just wanted Donald to see how some sleazy lingerie would look on his wife. I think we need to remember this when we envision Leon Black getting massage oil rubbed all over him by a bunch of bikini clad, massage therapist "victims". This is what we're worried about????

....but not Leon's mothernest of \$430B corporate fraud schemes among 45 U.S. insurers for which Harry Markopolos has agreed that nobody belongs in prison more than Leon Black-- unless its his partner's like Marc Rowan & Josh Harris who have since infiltrated the Trump regime. This is where I hold Caroline Cash, chief of staff for Rep. Comer liable in light of the ongoing hearings involving Leon. <https://thomasgober.com/the-apollo-memo-leon-blacks-q-o-a-white-collar-fraud-scheme/>

....**But to be totally honest, Leon Black doesn't piss me off**. In fact, he's the ONLY one in this whole fiasco who doesn't come across as a complete bullshit artist touting a defender of humanity scam used to cloak political & predatory ambitions. AND at least Leon Black had the decency to meet a woman at a bar with five thousand dollars cash in an envelope which is more money than I've ever seen from Tom Gober in all the years that I worked with him which produced his wildest dreams of a campaign which people would have paid tens of thousands of dollars for because that's what people will pay for a campaign with White House lobbyists & a media frenzy in which Tom's own attorneys have a seat at the table who I had to bring into the fold & who were all ready to launch once the formality of an evidentiary meeting was out of the way.... Any costs after that point would be covered by an investor collective & attorneys working on contingency.

.... *In reality*, Gober-- *like Epstein*-- preys upon those he can exploit or get over a barrel. But Tom's also the old-fashioned misogynist who gets increasingly worse & when he does he makes a woman jump through hoops & gives veiled threats by saying, *"if you're not happy, then maybe you should just leave"*, but only after bringing people in too deep to ever look back with both knowing that he can make off with everything you've produced if one doesn't work some magic. This is how Tom gets his rocks off before having to go back to his ugly wife & keep to his own eunuch version of a double life. At times, I felt that it was punishment for me not talking to him for two years at Starbucks until he made his approach.

If you take that last element out of it, Gober's business model is no different than these financial advisors firms that have newbies work 60 to 80 hours a week while not really teaching them much because they're too busy making phone calls in which they land clients, but they're get fired a week before their sales numbers hits and now the guy above them inherits all the new clients. In other words, it's a micro, pyramid scheme.

Newsflash! Gretchen Morgenson, you ONLY serve to validate what I've been saying all these years in terms of Tom Gober's behavior and what he's been sitting on. This also means that John Warren of the ACFE is an extension of that Epstein ring being that nobody has ever enabled Donald Trump & Leon Black more than he & Tom Gober and its all tied in to misogynistic power kicks which included deciding that deserved what I earned only at their approval.

....THIS treatment, of course, Gober would never apply to his own attorneys nor do these completely unethical attorneys give a shit about their expert witnesses' "barely legal" home business practices just like they don't give a shit about being cut out of *"the biggest cases of their careers"*-- *I'm quoting directly*-- JUST LIKE I'M QUOTING DIRECTLY WHEN I SAY THAT TOM HAD TOLD ME "WHEN THE DOMINOES FALL, I'LL JUST GIVE YOU MILLIONS OF DOLLARS" AND THEN BROKE MID SENTENCE WITH " YOU'RE NOT RECORDING THIS ARE YOU?.... THAT'S WHEN I GOT WORRIED.

Members of Gober's flock, much like his role model, Donald Trump, constitutes imbeciles & accomplices *and as of now, I'm not entirely sure which category Gretchen fits into*. This brings us back to accomplice, John Warren of the ACFE, who simply chuckled and condescended and blew me off over the phone by saying that he couldn't follow my formal complaint because of all the sexual, tension undertones which I didn't realize it contained, but John's a guy, so I guess he should know

.... **AND because John Warren's a guy**, he should have heard himself and seen the whole picture which included his online complaints regarding \$4 trillion in occupational fraud. But he and the founder Joseph T. Wells & the head of the ethics department, Jacob Parks, chose to enable an abuser of ethics, an abuser of woman & an abuser of the little guy that there's supposed to be protecting from someone like Gober by instead acting like executives off of Madman by treating me like I was a nuisance via my reporting to them an unethical member of their organization. On other words, this is the exact opposite of their mantra! <https://thomasgober.com/acfe-round-3/>

....But being the dried-up shrew who sees me as a rival that Gretchen is, I'm not something she champions. Instead, she ignored me after she initially responded to my emails regarding Tom. This was at the start of my campaign & the start of my website. Let's face it, I'm not someone you easily forget. This brings me to the picture of Gober used in her article as it's the same one I have on my website-- *Hell*, I remember when he first showed it to me!

For now, all journalists, attorneys & Mark Walter needs to understand that TOM GOBER-- *the sick voyeur & preacher of Starbucks*-- can in no way be allowed to hold interviews with the press OR produce videos featuring Mark Walter's image OR practices his trade as his licenses should have been revoked years ago. This means that backdoor methods like acting as a consultant are not acceptable, ONLY Gober's cooperation & the cleansing of his evidence by ethical people like Harry Markopolos.
