Dear Loyal Readers, anti-Trumpers, state attorney generals & Mark Zuckerberg or his proxies,

This 3.5-page, cover letter you're reading now will precede my final email that I'll be posting online titled **MY DEFENSE OF MARK ZUCKERBERG** and it will be right next to my Stormy Daniel's, defamation email which is now posted under the title of **CRIMINAL SOLICITATION TO COMMIT MURDER**.

<https://thomasgober.com/criminal-solicitation-to-commit-murder/>

In light of the latest, I thought this was important so I sent it to Judge Hillerstein. <https://abcnews.com/Politics/judge-rejects-president-trumps-attempt-move-criminal-hush/story?id=136035524>

..... **Likewise**, if an individual such as Donald Trump broadcasts an intent across state lines to induce someone to commit murder then state level persecutors can step in.

HERE'S THE LEGAL BACKBONE:

"While the cross-border nature of a broadcast primarily invites federal jurisdiction, **State District Attorneys or Attorneys General** could also theoretically bring charges under state laws:

- **The Originating State:** The state from which the broadcast was physically recorded or transmitted could charge the individual with state-level criminal solicitation to commit murder.
- **The Target State:** If the intended victim is located in a specific state, or if the broadcast specifically targeted an audience in a state to induce them to act, that state may claim extraterritorial jurisdiction over the crime because the intended harmful effects were directed there.

Constitutional and Legal Hurdles: To successfully charge someone for a broadcasted statement, prosecutors must satisfy stringent legal requirements:

- **The "True Threat" or "Incitement" Standard:** Under the First Amendment, political rhetoric and abstract advocacy of violence are protected speech. Prosecutors must prove the broadcast was a "true threat" or constituted an immediate incitement to lawless action.
- **Corroborating Evidence:** Under federal law (18 U.S.C. § 373), a solicitation charge requires strong corroborating circumstances showing that the speaker truly intended for the crime to be carried out, rather than engaging in idle chatter, hyperbole, or political theater.
- **Precedents set:**
 - *Will gallows on the front lawn of the White House do?*
 - *Does threatening to attack Greenland if not given the Nobel Peace prize work— AND HE HAS?*
 - *Marjorie Taylor Greene has the proof!* <https://youtube.com/shorts/yYSBSeMXFTw?is=Pa8xKmmr2LTmzNv>
 - *Does putting his name on the Kennedy Center then calling it a dump & threatening to demolish (kill) it after being forced to take his name off it enough proof?*
 - *Is doxxing a reporter to the point that her family is threatened and has to be relocated proof? Incidentally, this is what Trump did to Stormy D. & to EJC as opposed to defamation.*
 - *His best friend Jeffrey Epstein whose files continue to be suppressed was murdered in prison according to Epstein's brother & Epstein's attorney along with the common sense which tells us that the proof is in the fact the doctored security footage at the time of his hanging. This is proof, not conspiracy theories.* https://en.wikipedia.org/wiki/Jeffrey_Epstein

???Did Michael Wolff also tell Jeffrey Epstein to shake down Trump like he had Leon Black & Les Wexner?...Let's ask him?!

<https://www.aljazeera.com/news/2025/11/14/epstein-emails-with-author-wolff-raise-journalism-ethics-questions-experts>

BOTTOM LINE: Presidential immunity doesn't give Trump a pass to commit murder, but it creates a strong legal shield depending on whether the act is official or private.

.....The U.S. Supreme Court ruling, [Trump v. United States \(2024\)](#), divided a president's actions into two main types.

Private Acts

- **No immunity:** A president has zero immunity for private, personal crimes.

- The “Fifth Avenue” rule: If a president shoots someone for a personal reason, regular murder laws apply.
- Prosecution: They can be arrested & tried in a normal criminal court for private acts.

Moving forward, this latest email is dedicated to the legal terrorism, negligence & the dumbing of America for which Rob Bonta & his team of questionable AG's have contributed to as I see their sham activism as nothing more than a pack of hedge fund hyenas who compound harm— *like garnering skewed, media coverage*— that tries to convince us that their shit lawsuit against META is for our own good.

**Ukraine-Russia war latest: <https://share.google/DkM9nM3OfP5ad5U9>

*** <https://www.cnn.com/2022/08/31/russia-massive-strikes-ukraine-energy-infrastructure.html>

..... The above meltdown is what we need to be worrying about, but instead of Donald Trump listening to four-star generals whom he alienates, we have Laura Loomer & Natalie Harp.

BOTTOM LINE: ROB BONTA & his collection of so-called bipartisan AG's do nothing except create distractions which is exactly what Donald Trump always does.

.... On that note, I'm going to bring to the forefront a few of the Jews who're on our side in this country, whereas Rob Bonta & his AG's are working against us. In other words, this is where **Mark Zuckerberg needs to turn the tables in a reverse lawsuit because all I see is censorship, predatory lawsuits, double-standards & a gross dereliction of duty on the part of the AG's.** Quite frankly, I didn't expect Meta to fold so easily especially to such a stupid, “fat housewife” lawsuit, and I'm really disappointed in them because I needed another week to get this email off.

***This following Tarlov woman, along with Bernie Sanders, are the Jews who fight for us. https://youtube.com/shorts/t9TKsAtEglg?is=H4TS4EbeOqXu6L_Z

.....I featured her in my last mass email in which she was asked the same sort of “stun gun” question which is so stupid that you nearly can't even answer it.

Note, this confrontation is where the dumbest people in the room would've been laughed out of any classroom prior to 2000, but now they're on FoxNews trying to promote themselves as savvy by making rational people look like they have nothing to say & when they do answer they're met with faux condescending, “truck stop” intellects & blonde trash who fucked their way through school before catching the eye of Donald Trump **which is never a compliment!**

???NEXT, if Donald Trump is going to tear into Maggie Haggerman, then how does he avoid not going after Mark Zuckerberg especially with all that Mark allows to be exposed & traded on Trump daily?? <https://www.thewrap.com/media-platforms/journalism/trump-reacts-new-york-times-maggie-haberman-9-11-memorial-story/>

Furthermore, Mark Zuckerberg isn't abusing journalists— *especially female ones*— who ask obvious questions that need to be asked just so Trump can tear down their psyche.

....BUT Rob Bonta wants to worry about a stupid, beauty filter on Facebook in terms of how it impairs an adolescent's self-esteem despite such things being widely available on multiple apps.

BOTTOM LINE: This is no longer about left versus right. This is about all rational people vs Donald Trump along with his dregs of society & criminal regime who live by completely different standards & agendas.

....I hate to say it, but if Joe Biden hadn't bowed to leftist, sham activism that glorified border-jumpers & big, ugly men in women's bathing suits, then right-wing sublimators wouldn't be allowing Trump to get away as much as he is while using Hunter & Joe Biden as a coat hook on which to hang their bruised ego.

But for now, a dementia-ridden, unhinged & unstopped by his own party, megalomaniac continues to declare war on the world while destroying the nation's economy, its irreplaceable natural treasures & our democracy. This has been happening EVERYDAY since Trump has taken office in his second term despite having led a coup on our country **and all because** he has surrounded himself with January 6ers who openly support his treasonous reign of terror while his duplicitous, political felons employ nothing more than smart-ass, role-reversal tactics as we've seen time & again with Ted Cruz & now Kayleigh McEnany. In a civilized country, these bunco artist tactics wouldn't be flashed in a courtroom unless a person were interested in self-convicting.

.....But put covert criminals in place of judges who lied under oath to get their job then betrayed their oath by making Trump king instead of these judges being tried by a jury of their peers, **and now we have “wise-ass” banter & political puppets as the new law.**

**This video goes out to Amy Comey Barrett, and I put my comments in the comments section. <https://youtube.com/shorts/AbgcK1-jOxi?is=1TCVaYkBSfr5mh>

* John Ossoff is all pomp & circumstance, but Josh Shapiro is filing yet another lawsuit against Donald Trump to protect the midterm elections.

<https://scottpeters.house.gov/in-the-news/democrats-in-congress-warn-save-act-would-make-voting-harder-for-millions>

.....**Unfortunately, kids are going to be less informed about this thanks to Rob Bonta's "Granny Hatchet" lawsuit.**

On a final note, what really bothers me is that there are no real men among Trump's Republican inner circle because if they were real men then they would tell him to act like an adult without fear *especially* around women **AND** they would know how to do it. If they can't, then they're not real politicians.

Surveillance footage from the night Jeffrey Epstein died at the Metropolitan Correctional Center contained a one-minute gap between 11:58 p.m. and midnight, which [CBS News](#) later analyzed after a longer version was released.  CBS News +1

The Missing Footage

- **The Gap:** The Justice Department released an 11-hour video showing the outside of Epstein's cell tier. The time code jumped from 11:58 p.m. to midnight on August 9, 2019.  YouTube - CBS Mor... +1
- **Official Explanation:** Officials initially stated that a nightly system reset caused the missing minute.  YouTube - CBS News +1
- **Later Discoveries:** An extended version of the tape was later made public. It showed that nothing unusual happened during that missing minute.  BBC +1

Editing Discrepancies

- **Stitched Files:** Technical analysis showed the released video was stitched together from two separate source files rather than being one continuous raw file. 
- **Trimmed Time:** Metadata analysis revealed that nearly three minutes of footage were trimmed from the first source clip before the video was made public. 
- **Camera Angles:** Independent reviews noted that the camera only showed a common area and part of the stairs, leaving the main entrance out of direct view.  YouTube - CBS Mornin...
