I'm addressing this email to the goyim partners at Kaplan Martin for reasons that are twofold:

1. Roberta Kaplan, attorney for E. JEAN CARROLL, has for years now dismissed BOTH the suppressed evidence of Brighthouse Financial's insolvency, which is now being bought out by a private equity at a premium most likely for a dividend recapitalization scheme.

..... BUT MORE IMPORTANT is Roberta's dismissal of Leon Black's \$430 billion fraud reinsurance scheme among 45US insurers that goes upwards of the \$3 trillion mark which makes it the *"motherest of corporate fraud schemes"* said the CFE behind the AIG debacle who til this day continues to violate my civil rights in what is the unsung half of the ME TOO movement as opposed to the Ugly Girl Mafia with an axe to grind that is Roberta Kaplan & E. Jean Carroll.

.... Note that none of this should surprise anyone considering that the law firm which Roberta & Judge Lewis A. Kaplan were partners at are on Apollo Global Management's payroll when its not joining Leon's bagman— Marc Rowan— in harassing the Ivy League into blackballing student protesters by distorting their criticisms of Israel as being anti-Semitic.

..... It doesn't take a criminal psychologist to figure out that this is a ruse used to justify the elimination of free speech, the Jew-censoring of facts & the paving of the road towards genocide which all begins by railroading the true victims and defenders of humanity who serve as roadblocks.

In other words, what the Jew does to the Palestinians openly & aggressively is what the Jew in the west has always done to the white man, but passive aggressively thru role-reversal tactics which becomes enforced through institutional control, sham activist-terrorists & gangster attorneys in order to undermine the mainstream while dodging accountability & maintaining the victim card.

2. This brings me to the second reason why I'm limiting this email to the goyim partners of Kaplan Martin: Jews are a conflict of interest who only serve themselves while pretending to serve others (pawns). This is why Roberta & Judge Kaplan infiltrate the assembly line of our judicial system & our national interests.

.....To all my readers, I dedicate this email to two of the most toxic con artists of the twenty-first century who're largely responsible for igniting Trump terrorism & a MAGA backlash. This includes all of Trump's revenge agendas & "greasy palm", Jew pandering that comes to us today thinly cloaked in the same normalized Jewish, terrorism tactics that were plied on Trump in the courtroom during the E. Jean Carroll trial.

.....With no further ado, let's welcome that hideous, dyke troll of a Jewish, sham activist— ROBERTA KAPLAN— who served as the crooked attorney for the dried-up, opportunistic old, whore— E. JEAN CARROLL— who together perverted then capitalized on the Me Too movement by establishing their fake allegations as premises from which we must all work off of whilst relying heavily upon 40-50 decades of anti-establishment, Jewish leftist idiocracy as opposed to convicting Trump for orchestrating a coup to overthrow the government.

.....Together, this ambulance chaser and her client with a neck brace— Roberta & EJC— have done inconceivable damage to society by *being out for nobody but themselves* while cloaking their avarice in a defender of humanity, marketing scheme that taps into people's emotions, not their reasoning. It reminds me of what a NASDAQ producer said about David Einhorn only being out for himself when I showed him the email wherein Brighthouse Life had a \$6.5B surplus that was deducted from Brighthouse Re's liabilities.

.....Anyway, we all know that an educated & ambitious attorney like Roberta Kaplan views E. Jean Carroll— *along with her bogus, advice columnist gig*— as pure garbage being that the only people who get those jobs other than well-connected, old Jewish women is someone who screwed for it. But that doesn't stop Roberta from spinning EJC's bruised ego in need of redemption into that of a civil rights hero, *especially* when one considers that our national culture glorifies stupid & dishonest, **not** true victims like Stormy Daniels who was weaponized by the government that left her to get stuck with Trump's \$600k legal bill when all she wanted was a lousy \$138,000 to go away.

NEWSFLASH! I've spoken to salespeople at Bergdorf Goodman and they just laughed at E. Jean Carroll's account because they know it never could have happened being that a key is required to get into the dressing room. Not to mention, the floorplan is definitely smaller & more intimate than major department stores — *being that it is the former home of Gloria Vanderbilt*— which makes it an even greater impossibility for someone like Donald Trump to sneak off for a little bit of hanky-panky in a woman's dressing room.

..... Moreover, a juror would have to be out of their mind to think that a salesperson in the '90's would leave Donald Trump unattended in a place like that. *But nonetheless*, if I were stupid enough to believe EJC's ludicrous & indefensible story then someone logical would have to come forward to point out the fact that this idiot hustler had effectively admitted to getting virtually naked in a dressing room for a well-known, local billionaire in what is clearly an audition **OR** the laying of the groundwork in order to become his mistress. *Incidentally, groping is not rape.*

.....**Note**, this is the point wherein *anyone else* in this country who hadn't been propped up by a Jewish, marketing scheme would've been forced to drop the babe in the woods routine as it can't possibly work on any rational, human being unless their minds have been poisoned to disregard logic such as the three judges who upheld the initial verdict by Judge Lewis A. Kaplan. *Likewise*, Donald Trump groping EJC was her intended goal, **NOT** EJC feeling jilted like the cheap tart that she really is. *Furthermore, is EJC's course of action really the sort of advice that an advice columnist would give to her readers?*

QUESTION: Is anyone else having flashbacks to Marc Rowan openly admitting to harassing UPENN's faculty in order to get them to suppress Israeli atrocities while playing the victim thanks to the Jewish, media cronyism that aggrandizes a piece of human filth like Marc Rowan?

.....Meanwhile, the name of the Jew game is to vilify decent people AND to censor Marc's siphoning of the insurance industry being that it's all about "Make America Stupid, Divided & Groveling to Jewboys Again" ya' know, the Jewboys whose approval we must all seek while shooting ourselves in the foot, yet believing ourselves to be smart, worldly & morally superior for it... But again, this is how psychopathic, cry bullies like Jews have dumbed down their targeted, white, middle-class while perverting the moral nature of this country. Nowadays, it is once more dividing the country by inciting hate, but this time it's directed at the black, middle-class as punishment for going PLM.

Also note that both Judge Lewis A. Kaplan & Roberta Kaplan worked at the same law firm whose treatment of student protesters is to enforce sugarcoated, Jewish terrorism & its dictatorship here in the "Redneck Jew.S.A." **and guess who the sham, activist attorney against the right-wing, Charlottesville protesters was?** You guessed it— **ROBERTA!!**

.....The same Roberta who fails to explain that these white nationalists spoke for a lot of cowardly moderates whereas Roberta spoke for the dumbed-down, white middle-class that had been taught by JewTV to hate & to overturn itself by adhering to anachronistic standards **as opposed to** focusing on the unbroken chain of abuses committed by holocaust dodgers both in Israel & in the U.S.

.....**WAKE UP!** Taking down those statues had nothing to do with cleaning up loose ends from a bygone era. If this were true, the tone would've been more level-headed & less populist. Just remember, Jews always target the foundations of any country whether it be its children or its institutions while playing the hero and in the process getting the malleable, idiot goyim to serve as their loudest doormats until it gets to the point that social-climbing, desperate housewives join in. But ever since blacks went PLM, the redneck right has been resurrected from under the bus and put to task with a Jewish, revenge agenda cloaked in a defender of humanity scheme which retards like Greg Gutfeld peacock as their own.

Bottom line, I hope that Roberta's alt-left clients from the Charlottesville rally are now protesting Israeli atrocities & the insidious, Jewish terrorism that's controlled this country for decades by finally recognizing the fact that Jews have gifted everybody with white hate cloaked in activism while making their enemy our enemies. This means vilifying decent people whether they be Palestinians who are driven to suicide bombings OR white, Christian nationalism that becomes a self-realizing prophecy.

.....but at least the latter helped to save the white man from a Jewish ISIS that invaded Europe during the Middle Ages which the "Never Forget!" Jews insist that everybody else does. This begins by vilifying our ancestors in order to dumb down their descendants while the Jew reinvents a more palatable reality for themselves which they insist becomes everyone else's reality or the other 98% is vilified.... **Note, this scam is riddled throughout their Jew courtrooms which includes the glorification of E. Jean Carroll.**

..... Just remember that Jews always lay the groundwork FAR in advance by taking everything they're most guilty of then preemptively accuse everyone else of being anti-Semitic, conspiracy theorists if they dare to point it out. When this happens, these con artists get away with fake allegations that they enforce as truisms. A perfect example of this would be accusing Donald Trump of defamation simply for calling E. Jean Carroll out for being the lying, opportunistic, old whore on the make & failed, social-climber that she is who he also didn't even recognize. **Newsflash!** It's not defamation for Donald Trump to speak the truth for once in his miserable life.

BOTTOM LINE: Roberta & Lewis belong in ghettos, NOT corrupting our judicial system.

..... *Better still*, how do they both feel now that our idiot president is employing Jewish victimology with all of its "defender of humanity", bullshit scams against its own citizens in order to justify payoffs to Jews at the Ivy League while becoming an international war criminal who funds genocide & enriches himself from it.

..... Thanks to burying this man alive in legal debt along with the glorification of border jumpers, transsexuals in sports & E. Jean Carroll, Trump's now taking out his fury on everyone else except for the source of his leftist angst, which is all the Jewish supremacists who always comes cloaked in a liberal wrapper before being forced to play the right against the left.

In November 2023, amid a wave of [pro-Palestine protests](#) on law school campuses, [Paul, Weiss, Rifkind, Wharton & Garrison](#) was among a group of major law firms who signed a joint letter to elite law school deans, urging them to not allow "antisemitic speech" on campus, including "criticism of the state of Israel."

..... Note that this terrorist group of MOSSAD agents with their Jew-skewed perspective & "pogrom the mainstream" tactics actually believe that this shit sounds acceptable. In other words, this is how the pushy, badgering Jewish collective with its fake persecution complex has collectively skewed the national perspective for decades. More importantly, it shows the depth to which Jews have normalized insanity & double-standards in the "Jew.S.A." until these student protesters came along.

.....Again, this takes decades to accomplish and it starts by dumbing down the middle class while pitting underdogs, imbeciles & accomplices against any remaining rational person in order to enforce compliance to double standards, double talk, encroachments, sycophancy & nonsense in what effectively amounts to Jewish, hate crimes & domestic terrorism thanks to an institutionalized form of victimology demagoguery that relies upon brainwashing & mob rule to carry on its agenda.

In the early 2010s, chair Brad Karp decided that Paul, Weiss needed to increase its exposure to the [private equity](#) industry so as to boost revenue. [Apollo Global Management](#) then became the most important firm client, paying more than \$200 million annually in legal fees. Paul, Weiss revenue subsequently rose from less than \$700 million in 2009 to more than \$3 billion in 2025, while Karp became one of the highest-paid lawyers in the world.^[24] Its importance to the firm also led Karp to entangle himself in the personal affairs of Apollo's CEO and co-founder, [Leon Black](#), and his representative, [Jeffrey Epstein](#).^[24]

Moral of the story, the apple doesn't fall from the poisonous tree.
